# ARITAYAKI PORCELAIN CLOCKS

The name "Aritayaki" originates from the beautiful town of Arita, located on Kyushu Island of Japan. Made with the finest Kaolin clay in Arita, the pure-white exterior of the porcelain gives off an unparalleled, shinnying surface. Aritayaki, formerly of contributions to the royalty and the accession of Asian and European collectors since the 17th century, is an astounding result of traditional Japanese craftsmanship. With the perfectly cut contour, untainted reflection, and gorgeous painting, one can never doubt its beauty and sophistication.

# Magic Motion Clocks

The concept of Magic Motion clocks comes from “Karakuri,” a traditional Japanese mechanical device that takes you by surprise, utilizing a complex system. RHYTHM created the Magic Motion clocks, mimicking the overall idea behind the mechanisms and adding different features to make it noticeable, among other clocks. Lights, synchronized with the melodies played, illuminate not only the clock itself but also the environment surrounding it. Genuine crystals embedded in the clock are a perfect combination with the wooden frame, coming in a variety of different types, embellishing the clock even further. Whether it be the living room or the master room, the wall clock is sure to suit any room, lightening up the mood to create a comfortable environment for everyone. As a bonus, the night sensor function temporarily disables all features except the time-telling feature when the room is dark, allowing users to enjoy the tranquility while gazing at the beauty of the clock.

### Gala

Coming in various pastel color schemes, the Gala, representing a fantasy world, brings you an imaginative experience. On the hour, the dial, the most noticeable point, rotates down, unveiling another Magic Motion wheel, encrusted with real crystals, to one of 30 melodies available. As if it could not get any better, the beautiful rotating pendulum on the bottom continuously adds flavor to the glorious piece.
